

Abstract

The invention relates to a crystalline composition, a poly-crystalline product and an article of manufacture comprising an amount of SiO_2 , Al_2O_3 , CaO , Fe_2O_3 , TiO_2 , K_2O , P_2O_5 , Cr_2O_3 , ZnO , MgO , Na_2O , Li_2O , CeO_2 , ZrO_2 and MnO_2 and methods for preparation
5 the same.
